List your research accomplishments. Examples may include identifying a research project, submitting an IRB, funding application submissions, conference submissions, course/seminar papers completed, other):

Please identify any areas related to research processes, coursework, or other tasks that you would like to improve upon. For example, better time management, more efficient writing, improving teaching skills, etc. This will help your faculty advisor learn what some of your needs might be and may be used by GWS to develop future grad workshops.

Is there anything you would like to request from your faculty advisor to better support your success and progress?

Is there anything you feel you need support within the PhD program, on campus, etc?

Please indicate any milestones you have completed and when you completed them (i.e. qualifying paper, preliminary exam, dissertation proposal, and/or dissertation).

Milestone	Semester Completed

To be completed by your advisor:

What is going well in terms of the student's academics and research?

Is the student meeting GWS PhD milestones as well as other academic expectations that you have outlined? If not: 1) how can GWS support the student in meeting these milestones and/or expectations and 2) what individual, self-directed plans should the student put in place to meet these milestones and/or expectations?

Please provide a brief summary of your student's funding and research plans for this summer and for the next academic year.
